Whistler, Loyd and Sons, Ambia .....	Lot 5
Woods, George and Sons, Frankfort .....	Lots 11, 21, 26

# *Terms and Conditions of Sale*

**TERMS**—The terms of the sale are cash, unless other arrangements are made with the consignor from whom the cattle are purchased before the sale commences and the sale manager is notified of the arrangement. Buyers who are not known to the sale manager will bring bank references. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at the buyer's risk as soon as bid off, but the management will attend to loading on cars or trucks in compliance with instructions from the purchasers.

**GUARANTEE**—All cattle are sold subject to a sixty day retest for tuberculosis and health certificates will be furnished to enable them to be shipped into any state. All cattle have been blood tested for Bang's Disease and Tuberculosis within a period of thirty days prior to the sale, unless calfhood vaccinated and under 24 months of age. Bulls are guaranteed breeders if properly cared for and not allowed to run with the herd. If a bull fails to breed, he may be returned to the seller if in as good condition as when bought and, if, after a test in the seller's herd, he still fails to breed, he will be replaced or the purchase money will be refunded. All cows with calves at foot are considered breeders and no further guarantee is made with respect to them. All other females sold are guaranteed to be breeders.

Animals returned to sellers because they do not comply with guarantee will be at buyer's cost of transportation.

The above guarantee and terms shall constitute a contract between consignor and buyer of each lot. Neither the Indiana Polled Shorthorn Association, Inc., the Sale Manager, nor the Clerk of the sale assumes any liability, legal or otherwise.

A certificate of registry and a signed transfer will be furnished for each lot sold and an application for registry will be furnished for each calf sold at foot and for each unborn calf sold in dam.

All footnotes were written by the consignors.

We will not be responsible for any accidents that may occur but will make every effort to provide for the safety and comfort of our guests.

Any announcement or correction of material in the catalog made from the auction stand on sale day will take precedence over the matter in the catalog.

**MAIL BIDS**—Those wishing to buy at this sale, who cannot be present, may send their bids to H. W. Walker, 904 East Maple Road, Indianapolis 5, Indiana, or telephone Walnut 5-6273; Hal Longley, The Shorthorn World, 16 S. Locust St., Aurora, Illinois; to any of the consignors, field men or officers of the State Association.

# SHOW CLASSIFICATION

Judge—Herbert Weber, Edgerton, Ohio

## BULLS

Class I — Bulls calved prior to September 1, 1954

Lots 1, 2, 3, 4

Lots 5, 6, 7, 8, 9

Class III — Bulls calved between October 10, 1954, and January 1, 1955

Lots 10, 11, 12, 13

Class IV — Bulls calved since January 1, 1955

Lots 14, 15, 16, 17, 18

**Champion Bull**

**Reserve Champion Bull**

---

## FEMALES

Class V — Females calved prior to April 1, 1954

Lots 19, 20, 21, 22

Class VI — Females calved between April 1, 1954, and August 1, 1954

Lots 23, 24, 25, 26, 27

Class VII — Females calved between August 1, 1954, and January 1, 1955

Lots 28, 29, 30, 31, 32, 33

Class VIII — Females calved since January 1, 1955

Lots 34, 35, 36, 37

**Champion Female**

**Reserve Champion Female**

---

## TROPHY FOR BEST THREE HEAD

The Indiana Polled Shorthorn Breeders' Association is providing a beautiful trophy to be presented to the consignor showing the best three head of his own breeding. After this trophy has been won three times (not necessarily in succession) by the same breeder, it becomes his permanent property.

Previous winners: Fall, 1954, Lynnwood, Carmel, Indiana; Spring, 1955, Lynnwood, Carmel, Indiana; Fall, 1955, Wilbur G. Walker and Son, Frankfort, Indiana.

*A Fine Selection of*

★**ROUND GROVE LEADER 30th (Twin) x2812-394.** This bull's full sister topped the 1952 International sale at \$2000. Two three-quarter sisters topped the 1954 Oakwood Customers' Sale at \$2000 and \$1500. Another three-quarter sister was first prize Gold Medal heifer at the 1955 Indiana State Fair. A full brother is doing an outstanding job as herd sire for Lue Berline, Caldwell, Kansas. Note that his sire is the 100 percent dehorning Congress champion and try to find a hole in his uniform smoothness, depth and straight lines.

**Lot 3—Male****Charles M. Quick****QUICKSTEP ILLUSTRIOUS x2817-801 (Tattoo RE Q 42)**

Roan, W. W. Rose & Son

★**WHITE OAK FACTOR 3d x2855-562.** A dark red, low-set, deep, thick calf that can be the breeding bull buy of the year. He is out of the same dam as White Oak Rothes at Ben Franklin's Birmingham herd in Canada after his brilliant show and breeding career at Lynnwood. All her calves have been the top kind. Sired by a good son of Lynnwood Leader; so, he is right by inheritance. Could be shown and he has plenty of polled breeding to suit the herd that needs a dehorner.

★**LYNNWOOD GLOSTER A 3d x2851-623.** This is a daughter of Lynnwood Agent, a bull that was Champion Gold Medal bull at the Indiana State Fair in 1953. He was in the winning Gold Medal Get that year and in the open class winning get at Indiana in 1954. He was always at or near the top in both polled and horned shows. He sold in the Fall of 1954 to Lester Ingham and Stewart Dudley of Fredonia, New York. This is his first calf and she is a show prospect as well as a great brood cow prospect. The Duchess of Gloster family, from which she comes, is one of the best and her mother is an own daughter of Lynnwood Leader. Calfhood vaccinated and pretested clean.

[illegible]

# MEMORANDUM

# MEAT at LESS COST (and with greater satisfaction) SHORTHORNS

ering this record and the records of the Virginia sales, we must conclude that Shorthorns and Polled Shorthorns gain rapidly and economically, both as calves and as they proceed to maturity; that they make more profit, whether sold as feeder calves or as finished steers; that they produce the kind of carcass for which the consumer pays the high dollar with a minimum of grain feeding.

## Indiana Gold Medal Weights

Here in the Hoosier state we have the Gold Medal Calf Clubs which correlate type and weight. Before an animal is eligible to compete in the Gold Medal show classes at county and state fairs, it must first have proved its ability to gain—for heifers, 1.5 lbs. per day of age, plus an arbitrary 70 lb. birth weight; for steers and bulls, 2 lbs. per day, plus 70 lbs. While this is a program primarily for purebred animals and satisfactory type is of high importance, we are dealing with beef making aspects in this ad, so will stick strictly to weights. In 1955, the Polled Shorthorns entered in Gold Medal Calf Clubs were weighed in at approximately one year of age and established the following records:

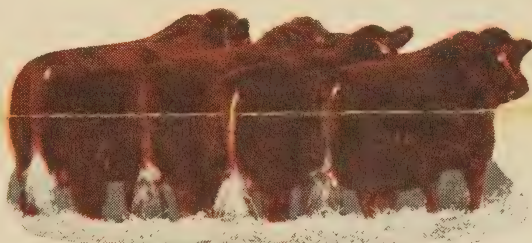

105 Heifers averaged 1.76 lbs. daily gain  
49 Bulls averaged 2.22 lbs. daily gain  
14 Steers averaged 2.22 lbs. daily gain

The only difference between Shorthorns and Polled Shorthorns is the fact that the latter are naturally hornless. As further evidence of this fact, the weights made by Shorthorn calves in 1955 Hoosier Gold Medal Calf Clubs are:

225 Heifers averaged 1.74 lbs. daily gain  
134 Bulls averaged 2.12 lbs. daily gain  
71 Steers averaged 2.29 lbs. daily gain

Considering all the figures presented in this ad, you have the evidence on more than 1,000 Shorthorns and Polled Shorthorns produced on 300 or more farms, with as many different sets of conditions. Can you doubt that Polled Shorthorns will do as well for you. . . . There is good reason to specify Polled Shorthorns. Hornlessness is de-

sired by farmer, feeder and packer, alike. For farmer and feeder, the hornless animal gives greater economy in housing and equipment investment. (You can keep 25% more cattle in the same space if they are hornless.) For the packers, there is less carcass damage. . . . Sure you can dehorn mechanically. You can catch calves and burn horn buttons with electricity or chemicals—but you use labor and set calves back when you do it. You can wait till the horns are bigger and saw or clip them off—and use labor, waste blood that was built with costly feed, stop gains for several days, and maybe lose an animal or two. . . . How much simpler, easier, more economical it is to do your dehorning the natural way—with a Polled Shorthorn bull. Even on horned cattle, a Polled Shorthorn bull will produce 75% to 100% hornless calves. . . . Calving season is here. Be ready to produce fast growing, hornless, profitable calves in 1957. Buy a Polled Shorthorn bull right away.

Many of the nation's best herds are located here where breeders small and large produce cattle of similar type and breeding. There is no better place to buy Polled Shorthorns than in Indiana. Take advantage of the Indiana Polled Shorthorn Show and Sale to be held in the Tippecanoe County Fair Grounds, Saturday, April 21st, and buy some good Polled Shorthorns, bred in Indiana. Write today for our directory of breeders and sale catalog. Make your next herd sire an Indiana-bred Polled Shorthorn!

**INDIANA POLLED SHORTHORN ASSOCIATION, Hartford City, Indiana**

(This ad paid for by Charles J. Lynn, Carmel, Indiana)

# YOU can produce MORE with POLLED

**I**T is a recognized fact in all livestock that the fastest gaining animal is generally more efficient in feed conversion and, consequently, puts on pounds at lower cost. . . . In Virginia, where several thousand head of commercial calves are sold as feeders each fall, the following information was obtained on the animals sold in all sales in 1955.

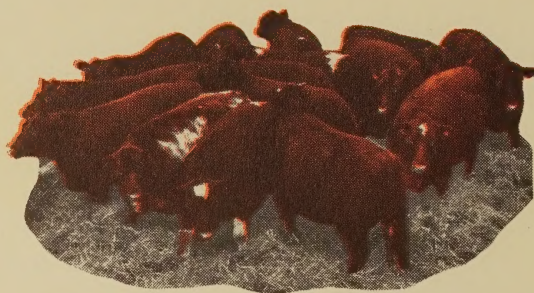

## Virginia Feeder Calf Sales—1955

Steer Calves

	Grade	Avg. Weight	Price per Cwt.	Value per Head
All Breeds	Fancy & Choice	472 lbs.	\$23.75	\$112.06
Shorthorns*	Fancy & Choice	498 lbs.	24.97	124.25
All Breeds	Good	450 lbs.	22.40	100.79
Shorthorns*	Good	493 lbs.	23.91	118.01
All Breeds	Medium	436 lbs.	20.49	89.42
Shorthorns*	Medium	491 lbs.	22.68	111.32

\*Both horned and polled

Several things here are worthy of consideration. First, the Shorthorns consistently outweighed "All Breeds" (which included the Shorthorns) by from 26 to 55 lbs. . . . In the same grades, Shorthorns fetched more dollars per hundred-weight and netted their sellers from \$12 to \$22 per head more money in selling price. If we add to this the lower production cost axiomatic with faster gains, the Shorthorn consignors had at least \$20 to \$30 more net profit above feed cost than did the consignors of other breeds. And while we cannot follow these calves on through the feeding period, we believe these same calves will show a correspondingly greater profit for the feeder. (The buyers must have thought they would, or they would not have paid those premium prices.)

These 15 steers, part of the 35 mentioned below, were International Champion carlot of short-fed steers.

## Record of 35 Short-Fed Steers

An Indiana Polled Shorthorn breeder (name on request) purchased a bunch of Shorthorn and Polled Shorthorn feeder calves, roughed them through the winter and pastured them until August 1, when they were put in dry-lot for finishing. In 116 days these 35 steers had an average feed consumption as follows:

1,651 lbs. alfalfa silage @ \$8 per ton\*  
603 lbs. corn silage @ \$8 per ton\*  
151 lbs. mixed hay @ \$18 per ton\*  
22.5 bus. corn @ \$1.15 per bu.\*  
406 lbs. supplement @ \$80 per ton\*

\*Current prices, so you can compare with your own records.

Averaging 739 lbs. on August 1, the steers weighed out at 1024 lbs. average—a daily gain of 2.4 lbs. without antibiotic or hormone stimulants of any kind. The average feed cost per cwt. of gain was \$18.41. . . . Fifteen of these steers were then exhibited in the Short-fed Carlot class at the International, where they topped all breeds in this class. They were sold to an Ohio packer where they killed out with a 63.2% dressing percentage. Four of them graded prime and eleven graded choice when the carcasses were hung. . . . Consid-
